

Dark Green™

DARK GREEN™ can be used for soil or foliar application, to prevent and correct pre-existing Iron deficiencies as indicated by plant leaf and soil testing. The ingredients in DARK GREEN™ are 100% water soluble and chelated. It is immediately available to the plant (via Foliar application) therefore making this product extremely efficient for the plant to pick up Iron in situations where a rapid greening is desired. Greening color in lawn or plant will be noticed one to two days after application.

STORAGE

Keep container sealed tightly when not in use. Do not expose to sunlight for long periods of time. Store in temperatures between 5 C (41 F) and 25 C (77 F).

Dispose of Waste Material according to local, state, and Federal environmental laws and regulations.

CAUTIONS

Because of the nature of Iron care should be taken when mixing with Humic acid, Phosphates and or Calcium products. Always do a jar compatibility test before mixing any two products other than water in your tanks.

DISCLAIMER

It is recommended not to use this product with fungicides or pesticides. However, if applied with a fungicide or pesticide, it is the user's responsibility to conduct a trial application on the crop(s) to be sprayed with this mix of chemicals to determine compatibility of products and compatibility with crop(s) sprayed. Harmful if swallowed. Avoid contact with eyes, skin, and clothing. If on skin, wash with large amounts of soap and water. If in eyes, rinse repeatedly with clean water. If irritation persists, obtain medical attention.

**Ingestion: If patient is conscious, give large quantities of water. Do not induce vomiting. Call physician.*
